

Perceptions and constructions of resources, resource crises and resource futures: looking at the Arctic and other spaces

Kick-off Workshop, Tensions of European Research network “Challenging Europe:
Technology, environment and the quest for resource security” (EURES)

Aarhus University, 8-9 November 2018

Thursday, 8 November 2018: Building a research agenda

William Scharff room, building 1253-317, Bartholins Allé 3 (see map)

9.00-9.30 **Presentation and introduction**

Matthias Heymann (Aarhus)

Goals of EURES and tasks for the workshop

9.30-10.30 **Session 1: Key input on major themes**

Erik van der Vleuten (Eindhoven)

Technology & societal challenges: Visions for GREASE

Per Högselius (Stockholm)

Resource transnationalism

Julia Lajus, Elena Kochetkova (St. Petersburg)

Resource crises and technology

Sebastian Haumann (Darmstadt), Ole Sparenberg (Saarbrücken)

Construction of resources and resource use

10.30-11.00 Coffee break

11.00-12.00 **Session 1 (continued): Discussion of major themes**

12.00-13.00 Lunch

13.00-14.30 **Session 2: Group work on research agendas and coming workshops –
What to include? What to accomplish? Which milestones?**

Short remarks on planned further workshops:

Jawad Daheur (Paris)

Mario Diogo (Lisbon)

Julia Lajus (St. Petersburg)

14.30-15.00 Coffee break

15.00-16.30 **Session 2 (continued): Plenary discussion on research agendas and
coming workshops**

18.30 Dinner at Madklubben (see map)

Friday, 9 November 2018

Auditorium G2 (1532-122), building 1532, room 122, Ny Munkegade 130 (see map)
Annual Meeting of The Danish National Committee for the History and Philosophy of Science

9.00-10.30 **Session 3: Practices and tools in the making of meaning**

Rasmus Leander Nielsen

**The Uranium-ordeal in Greenland: background and update on current
developments**

Janina Priebe

**Exploring dimensions of uncertainty and the social gap in bioeconomic
modelling**

Vladimir Pacheco Cueva

**Poor linkages between the energy security and resource extraction
research literatures - The case of Greenland**

10.30-11.00 Coffee break

11.00-12.30 **Session 4: Discursive strategies in the shaping of futures**

Lill Rastad Bjørst, Ulrik Pram Gad

What is Arctic sustainability? Three ways of producing knowledge about sustainable futures

Hanna Vikström

Critical metals and the futures of Sweden, Greenland and the Democratic republic of Congo

Jesper Willaing Zeuthen

China in Greenland. Whose Strategy?

12.30-13.30 Lunch

13.30-14.30 **Session 5: The coproduction of imaginaries and policies**

Stathis Arapostathis, Yannis Fotopoulos, Serkan Karas

Building visions and techno-political orders: In pursuance of oil and gas in Southeast Mediterranean, 1950-2017

Maya Pasgaard

Conflicting visions: Tourism and natural resources in South Greenland

14.30 -15.00 Coffee break

15.00-16.30 **Session 6: Identifying connections and alternative framings:**

How do the contributions link, and where to go from here?
